## Simple replacement of gas boilers

With specially developed accessories compatible with major gas boiler manufacturers, old gas boilers can be easily replaced.

### Installation/system recommendation

- For replacing gas boilers

### Application

- Decentralised, instantaneous domestic hot water generation
- Radiator heating systems
- Gas boiler retrofitting for renovation projects with replacement of individual gas boilers in apartments

### Installation options

- On wall with cabinets
- In the same position as the old gas boiler

### Certificates

- DVGW approval

### Specifications

- Port fully assembled and pressure tested
- Pipe clamps made of plastic for sound protection and thermal decoupling
- DVGW-certified PM valve with patented triple-sealing technology
- Thermostatic bypass valve
- Spacer for heat meter, 110 mm × 3/4"
- Spacer for water meter, 110 mm × 3/4"
- Venting and drainage valve
- Strainer for cold water, 0.5mm
- Strainer for primary heating supply line, 0.5mm
- Connection port (marked) for an electrical earthing lug
- Max. operating pressure, heating: PN10
- Max. operating pressure, sanitary: PN10
- Max. operating temperature: 85 °C
- Max. differential pressure, primary heating: 2.5 bar
- Min. pressure, sanitary: 2.0 bar
- Fitting material, sanitary: CW617N
- Fitting material, heating: CW617N, CW614N
- Pipe material: Stainless steel, 1.4401
- Measurements: W/H/D 435.5 × 618 × 115 mm

# Uponor Combi Port M-Retro

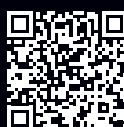

For domestic hot water and direct heating in  
gas boiler retrofitting.

## Accessories codes

- 15** Domestic hot water capacity indication (l/min.)
- St** Stainless steel heat exchanger brazed without non-ferrous metal for domestic hot water preparation
- NC** No cold water outlet from heat interface unit
- BP** Supply line preheating function
- TL** Thermostatic temperature limiter for domestic hot water, with submersible sensor
- DI** Primary differential pressure controller at the heat interface unit inlet

Item no.	Accessories codes
