## Uponor Comfort E for your personal heating moments

Imagine your feet touch a warm floor when you get out of bed in the morning or after having a shower. Easy to realise with Uponor Comfort E – the electric underfloor heating for any comfort space.

- **Wherever:** flexible installation options for any floor type in new-build and renovation projects
- **Whenever:** easy to install and create your comfortable place in no time at all
- **With quality:** rely on Uponor, the world's expert in underfloor heating, with quality made in Germany

Energy-efficient

10-year warranty

Ideal for renovation

Made in Germany

High quality

## Uponor Comfort E – electric underfloor heating at its best

- **Ideal for new build and renovation**  
Uponor Comfort E fits for tiles, laminate, parquet or vinyl floor covering in dry and wet floor constructions. Due to extra slim materials, a low floor height can be maintained.
- **Easy installation**  
Uponor Comfort E is easy to install and set up, even in small rooms with difficult spatial geometry. The cable mats don't need any further adhesive and help you to save installation time and costs – no special tools needed. Alternative you can use single cable for individual installation.
- **Quick comfort**  
Heats up and turns your floor into your comfort zone within minutes!
- **Quality made in Germany**  
Rely on Uponor, the world's leading expert in underfloor heating and enjoy product safety.

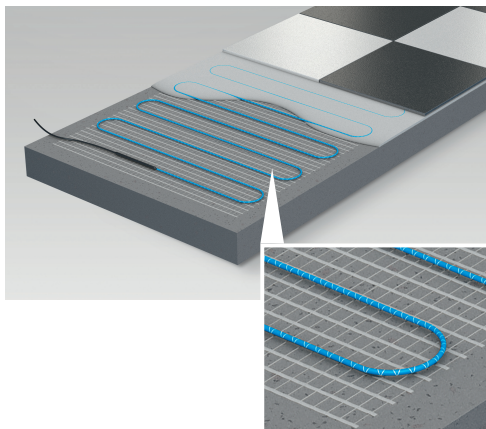

## Easy planning with the Uponor Comfort E Designer

Create your personal Comfort E layout plan and shopping list with just a few clicks: [comfort-e-planer-uponor.com](https://www.comfort-e-planer-uponor.com)

# ... with Uponor Comfort E at any time.

## Ultimately thin:

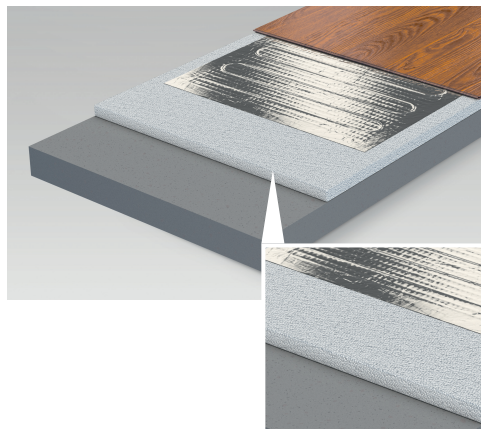

The flattest sew-up cable mat with cables of only 3 mm in diameter fits perfectly under tiles. Self-attaching mat fixation where the cable is sewn to the mesh guarantees no lifting up for fast and easy installation – even without any additional adhesives. Available in range of 100W/m<sup>2</sup> from 100W to 1200W and of 160W/m<sup>2</sup> from 160W to 1920W.

10-year warranty\*  
The cable is firmly sewn onto the mesh over the entire surface.

## Extra functional:

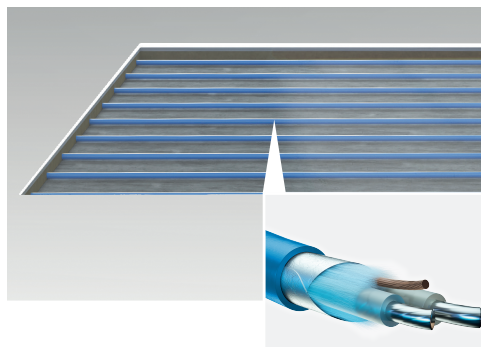

The aluminium foil fits for laminate, parquet or vinyl floor covering – without any special tools needed on-site. It is less than 2 mm in diameter and ensures optimal heat distribution. Save energy and reduce step sound with insulation boards from Uponor underneath. Available in range of 140W/m<sup>2</sup> from 140W to 1400W.

10-year warranty\*  
Add Uponor insulation for additional energy savings.

## Especially flexible:

The high quality single cable is ideal solution for complicated room spaces under the tiles. 2-wire shielded cable is only 3 mm in diameter and can be easily fixed on the prepared floor with the tape or in the clamp tracks. Available in range from 150W to 1850W.

10-year warranty\*

## For complete comfort: add your original Uponor control

Schedule your heating in advance with the programmable thermostat. Conformity of EU2015/1188.

Keep track of your heating costs with this programmable control unit. Conformity of EU2015/1188.

Benefit from the intuitive usage of our dial thermostat.
