

DECLARATION OF CONFORMITY

(According to standard ISO/IEC 17050-1)

Number: 2514

Manufacturer: Jita Oy

Product group: Jita drainage pipes

Ring stiffness class: SN8

Product sizes (OD): 110, 160, 200, 250, 315 and 400 mm

Material: Polyethylene (PE) or Polypropylene (PP)

The target of this declaration mainly conforms the requirements of the standard:

SFS 5675 Muoviputket. Kaksiseinäiset salaojaputket ja putken osat
(Plastic pipes. Double wall drainage pipes and fittings)

Additional information:

- Product size 110 mm has three or six drainage holes divided evenly on the circle of the pipe. Product sizes 160, 200, 250, 315 and 400 mm have three drainage holes on the upper side of the pipe, positioned 10, 12 and 14 o'clock.
- Slot's width is 1-2 mm and length 4-50 mm.
- Intake area is 10-100 cm²/m.
- The product has a structured, double-wall construction. Internal surface is plain and external surface is hollow annular profiled.
- The colour of the pipe is black, and it has green stripe on the top. Product size 110 mm with six drainage holes has no stripe.
- Socket is always included.

The Quality and Environmental Management System of Jita conforms to the standards ISO 9001 and ISO 14001 and is certified by DNV Business Assurance. Certificates are valid for the following scope: Design, manufacturing and sales of water steering systems and wastewater systems as well as cable protection products.
